

ROLEC*EV*

Electric vehicle charging solutions

ROLEC

Est. 1990

- ROLEC are industry leaders in the EV charging, marina and caravan park industries
- Manufacturers of high quality products, distributed and supplied worldwide
- Committed to consistency in hardware and software development to meet emerging demands
- Products seen across the world

ROLEC

Subsidiary business of SDIPTECH – a technology group providing specialized technology, solutions, and services.

ROLEC are one of 39 companies acquired by SDIPTECH, contributing to creating more sustainable, efficient and safer societies.

EV chargepoints on Smart Charging Network

ROLECEV

Leading the charge since 2007

When it comes to progress, we say

‘Roll on electric!’

An aerial photograph of a winding asphalt road through a forest. The trees are in various shades of green and yellow, suggesting autumn. A small blue car is visible on the road, navigating a sharp curve. The road has white dashed lines on the edge and a solid white line in the center.

ROLEC EV

Leading the charge since 2007

- Pioneers and innovators in the EV charging industry, with over 15 years of experience
- Domestic, commercial, workplace, fleet, development and temporary charging solutions
- Back-office management solutions, offering the gateway to operate your own charging network
- UK's largest range of smart OCPP compliant AC Fast & DC Rapid chargers
- Chosen chargepoint manufacturer for numerous businesses and organisations across the UK

EV CHARGEPOINT RANGE

The UK's largest range of AC fast & DC rapid chargers

- 3.6kW through to 480kW charging speeds
- Mobile app and/or RFID operated
- OCPP 1.6 compliant
- Built-in PME fault detection
- Supports DLB & SLM
- MID-approved metering*
- Tamper protection boundaries
- Branding & colour options
- Smart Charge Point Regulations compliant
- 3-Year warranty**

*excluding QUBEV SMART and ULTRACHARGE range

**2-Year warranty on ULTRACHARGE range

MODELS

7.4kW

22kW

One Charger | Two Outlets | Unlimited Style

- 1x or 2x universal charging socket(s) or Type 2 tethered lead(s)
- Plug & charge, mobile app or RFID controlled charging
- PME fault detection (no earth rod required)
- Dynamic load balancing (CT clamp & cable included)
- AC 30mA Type A & DC 6mA protection**
- Single outlet units can be upgraded to dual (single phase only)
- 4G / Wi-Fi / Ethernet connectivity
- IK08 impact resistant design
- Independent back plate for easy wall or post mounting

*DC 6mA protection for single outlet models

Personalise your Zura chargepoint

Customisable fascias for both HOMES AND BUSINESSES

SECURICHARGE

MODELS

7.4kW

22kW

Heavy-duty | Vandal-resistant | Space-saving

- 1x or 2x universal charging socket(s)
- Plug & charge, app, contactless payment (model dependant), or RFID controlled charging
- Built-in AC overload & fault current protection (RCBO)
- PME fault detection (no earth rod required)
- Built-in 6mA DC leakage protection
- 5" LCD Screen (model dependant)
- 4G / Wi-Fi / Ethernet connectivity
- IK10 rated steel enclosure
- Wall or post mountable

NEW

Contactless payment terminal, LCD display screen, and tethered models available upon request

QUANTUM

Sophisticated | Durable | Louvered lighting

- 1x, 2x or 4x universal charging socket(s)
- Plug & charge, app, contactless payment (model dependant), or RFID controlled charging
- Built-in AC overload & fault current protection (RCBO)
- PME fault detection (no earth rod required)
- Built-in 6mA DC leakage protection
- 5" LCD Screen (model dependant)
- LED amenity lighting head
- 4G / Wi-Fi / Ethernet connectivity
- IK10 rated anodised aluminium structure
- Surface or root mountable

BASICCHARGE

Simplistic | Affordable | Illuminating

- 1x or 2x universal charging socket(s)
- Plug & charge, mobile app or RFID controlled charging
- Built-in AC overload & fault current protection (RCBO)
- PME fault detection (no earth rod required)
- Built-in 6mA DC leakage protection
- LED amenity lighting head
- 4G / Wi-Fi / Ethernet connectivity
- IK10 impact resistant design
- Surface or root mountable

AUTOCHARGE

Robust | Hard-wearing | Easy-to-use

- 1x or 2x universal charging socket(s)
- Plug & charge, mobile app or RFID controlled charging
- Built-in AC overload & fault current protection (RCBO)
- PME fault detection (no earth rod required)
- Built-in 6mA DC leakage protection
- Switchgear & components behind lockable door
- 4G / Wi-Fi / Ethernet connectivity
- IK10 rated steel enclosure
- Surface or root mountable

ULTRACHARGE 30

MODEL
30 kW

Powerful | Intelligent | Compact

- Plug & charge, app, RFID or controlled charging
- 1x DC charging output
- Up to 30kW charging speeds
- Supports static and dynamic load management
- 8" HD user interface touch screen
- Optional RFID / NFC / contactless card payment terminal
- Optional pedestal mounting available
- 4G / Ethernet connectivity
- Ultrawide constant power output voltage range 375V - 1000V

ULTRACHARGE 80

MODELS

60 kW

80 kW

Powerful | Intelligent | Modular

- Plug & charge, app, RFID or controlled charging
- 2x DC charging outputs
- Up to 80kW charging speeds
- Upgradeable power modules
- Intelligent dynamic power sharing
- 15" HD user interface touch screen
- Optional RFID / NFC / contactless card payment terminal
- 4G / Ethernet connectivity
- Ultrawide constant power output voltage range 300V - 1000V

ULTRACHARGE 160

MODELS

120 kW

160 kW

Powerful | Intelligent | Modular

- Plug & charge, app, RFID or controlled charging
- 2x DC charging outputs
- Up to 160kW charging speeds
- Upgradeable power modules
- Intelligent dynamic power sharing
- 15" HD user interface touch screen
- Optional RFID / NFC / contactless card payment terminal
- 4G / Ethernet connectivity
- Ultrawide constant power output voltage range 300V - 1000V

ULTRACHARGE 240

MODELS

200 kW

240 kW

Powerful | Intelligent | Modular

- Plug & charge, app, RFID or controlled charging
- 2x DC charging outputs
- Up to 240kW charging speeds
- Upgradeable power modules
- Intelligent dynamic power sharing
- 15" HD user interface touch screen
- Optional RFID / NFC / contactless card payment terminal
- 4G / Ethernet connectivity
- Ultrawide constant power output voltage range 300V - 1000V
- Optional cable management system

ULTRACHARGE 480

Distributed Power | Intelligent | Modular

MODELS

360 kW

400 kW

440 kW

480 kW

- Plug & charge, app, RFID or controlled charging
- Each Power Bank can supply up to 3 User Terminals (6 outlets)
- Up to 2x CCS DC charging outputs per terminal
- Up to 480kW distributed charging speeds
- Upgradeable power modules
- Flexible matrix power switching
- 7" HD user interface touch screen
- Optional RFID / NFC / contactless card payment terminal
- 4G / Wi-Fi / Ethernet connectivity
- Ultrawide constant power output voltage range 300V - 1000V

OPTIONS & ACCESSORIES

Large stock of EV charging cables and accessories. All usually able to dispatch accessories within 24 hours.

- RFID cards/fobs
- CT clamps
- Mounting posts
- Ground mounting bases
- Protection barriers
- Charging cables
- Consumer units
- Chargepoint signage

BRANDING

Offering a bespoke branding service, allowing businesses and organisations to include their corporate branding across our entire EV chargepoint range.

Brand names, logos and trademarks used herein remain the property of their respective owners. This listing of any firm or their logos is not intended to imply any endorsement or direct affiliation with Rolec Services Ltd. and is purely to demonstrate branding opportunities.
